Mitag Plus

Replaceable CR2032 Battery

IP65 Waterproof

1. Face up the Mitag Plus, insert it into the hole obliquely, and press it down with your hand until it is inserted into the silicone sleeve of the tag.

2. Insert the Name card and transparent PET sheet into the socket.

3. Wrap the silicone rope on the luggage tag around the armrest on the luggage.

Before beginning the connection, please read the following carefully: Ensure that your Apple ID is logged in and functioning correctly. You can find this in the 'Settings' at the top of your iOS device and log in to your Apple ID. Then proceed with the next steps.

Check for updates. It is recommended to use the latest version of iOS, iPadOS, or macOS for the Apple Find My app to locate this item. On Apple Watch, use the latest version of watchOS.

Turn on "Find My" App and "Bluetooth"

Tap "Add Item" located at the Bottom on "Item" menu then select "Other Supported Item"

Press the switch button once to power on your Mitag Plus and once your Mitag Plus is located, tap "Connect"
